

VALUE STREAM MANAGEMENT

Transform into a High-performing Tech Company

The Planview® Value Stream Management (VSM) platform is the only VSM solution that equips federal agencies with the tools needed to modernize their platforms, streamline operations, drive innovation, and deploy at speed. It provides a comprehensive set of metrics and automated workflows designed to enhance mission efficiency.

With Planview, agencies gain an end-to-end control plane that seamlessly integrates and distills data from various teams, tools, and suppliers into dynamic, real-time dashboards, all while upholding the highest standards of security and compliance.

Improve Time-to-Market and Predictability

Increase Efficiency in Software Development to Unlock Capacity

Stay Modern and Compliant with Visibility into Debt and Risk

"The earlier you can establish the metrics around flow and start using those to tell your story, the better off you're going to be."

– **Bryon Kroger**, founder and CEO of Rise8, co-founder and former COO of USAF's Kessel Run

Key Benefits

✓ Business-Aligned Visibility

Connect technology to the mission with a single, simple set of metrics for the entire IT portfolio.

✓ Speed and Efficiency

Accelerate throughput by identifying unnecessary waste and constraints to flow.

✓ Measurable Transformation ROI

Leverage data-driven leading indicators to track the progress of transformation initiatives.

✓ Restore Hours of Productivity

Implement intelligent cross-tool integrations to streamline collaboration and automate handovers.

✓ Improve Quality

Resolve incidents quickly and efficiently to ensure field operatives benefit from reliable, high-quality solutions.

✓ Talent Retention

Empower teams with best-of-breed tools and a playbook for creating a culture of continuous improvement.

Why Choose Planview?

The Planview VSM solution is a data analytics and integration platform that automates, measures, and analyzes flow throughout the end-to-end product delivery lifecycle. It is accredited for deployment in IL4 environments through our partnership with SecondFront™.

How We Do It

✓ Connect Mission Strategy to Outcomes

Empower leaders with the data they need to make strategic decisions and adjustments, ensuring continuous alignment between mission and strategy. Analytics and proactive alerts improve predictability, agility, and operational efficiency.

✓ Make Lasting Change with Experts by Your Side

Embark on this journey alongside a team of award-winning authors, visionary thought leaders, and seasoned experts who offer personalized coaching to foster self-sufficiency.

✓ Rest Easy with Scalable, Secure Architecture

Automate data exchange and reporting while maintaining the operational stability of your tools, courtesy of our high-performance, low-impact connectors. Our connectors undergo rigorous testing and updates to guarantee uninterrupted and reliable connections.

✓ Make Complex Processes Visible

Visualize your value streams across the entire product development cycle to spot problem areas and boost release frequency. Ensure field operatives consistently receive high-quality solutions and reliable updates.

✓ Connect to Your Existing Ecosystem

Planview is the VSM partner of IBM, Micro Focus, Jama, UiPath, Apptio and Tricentis. We have more than a decade of technical partnerships with 30+ tool vendors including Atlassian, ServiceNow, and Microsoft.

✓ Deploy Quickly, Learn Fast

Integrate 60+ industry-standard tools with point-and-click ease. Generate tangible insights within weeks and significant improvements within a quarter, all thanks to our turnkey solution: pre-built, no-code connectors, and rich preconfigured dashboards.

To ensure the success of mission-critical software at scale, a modern product-operating model is essential for supporting digital transformation. Planview's value stream management solution paves the way for increased efficiency, higher quality, and faster delivery, empowering federal agencies to operate with the agility of digital natives.
