

# Work and Resource Management

## Connecting strategy and delivery enterprise-wide

At Planview our vision is simple:

To help organizations realize their resource potential

The business world is more complex, technological, and fast-paced than ever before. To keep up with rapid change and make better strategic decisions, organizations need greater visibility, transparency, and manageability across diverse and distributed departments and teams.

### Work and resource management brings everything into view

By connecting strategy and delivery, work and resource management addresses the challenge of getting work done. And, more importantly, getting work done that delivers on strategy.

### Focus on business capabilities and outcomes

By unifying a broad set of domains, Planview work and resource management solutions make it easier to achieve business goals. Our solutions span every class of work, resource, and organization, addressing the needs of teams, departments, and organizations.

# Deliver innovative products, services, and customer experiences

We partner with our customers – from small teams to the mid-market to global enterprises – to operationalize the execution of their strategic plans, ensure their resources are on strategy, accelerate time-to-market, optimize their technology portfolios, increase productivity, and, ultimately, achieve their goals.

Our work and resource management solutions, combined with our commitment to customer success, are leading to significant business outcomes for organizations worldwide:

- > Increase revenue through accelerating time-to-market by an average of 10-20%
- > Increase internal and contractor resource utilization by 5-15%
- > Reduce spend on non-aligned, failing projects by an average of 10-20%
- > Reduce time to reprioritize due to business changes and new projects from weeks to hours
- > Reduce report generation and portfolio analysis preparation costs by 20-50%
- > Reduce application portfolio costs by 3-5%

We make this possible through our comprehensive product portfolio:
